Summary

My name is **Abid Hussain Dar** I have recently completed a **Bachelor of Technology**, majoring in Computing and Software Systems. I have a passion for all things technology and design, from **software engineering** to **UI/UX**. In addition to my love of technology and design, I am also interested in education, history, economics and politics.

Recently: I mastered the **Frontend Web Development**. All of its fruits are available on my [op10y@GitHub](#) and on my personal website [www.optyx.ml](#) meanwhile I was able to learn and master *js libraries* like *three js*, *vanilla js* ... so quickly as i was including them in my Setup and i got introduced to the **React**, **Next js** for the easy and modern UI design, i'm still learning and mastering them.
